User Guide

# Brindavan Endpoint Audit.

Find VPNs, browser extensions and suspicious media on your PC. Quietly. In a few clicks.

### VPNs & Adapters

VPN software and network adapters on the PC.

### Browser Extensions

Extensions installed in the browsers.

### Media & Large Files

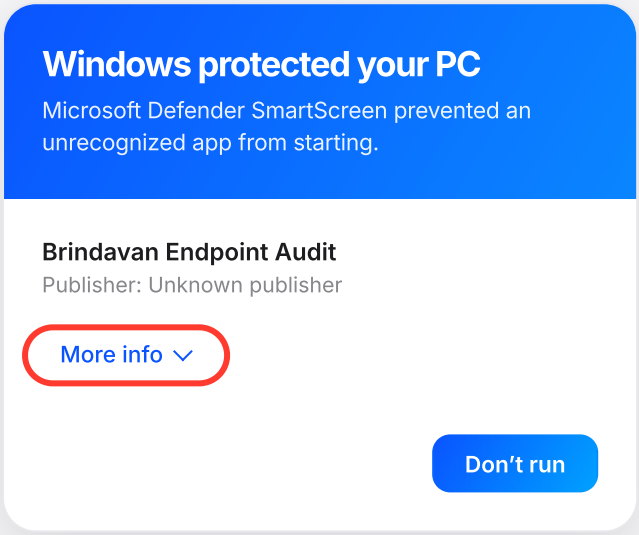

MP3 and MP4 files, plus suspicious videos disguised as PDFs.

In every screenshot, a red circle shows where to click.

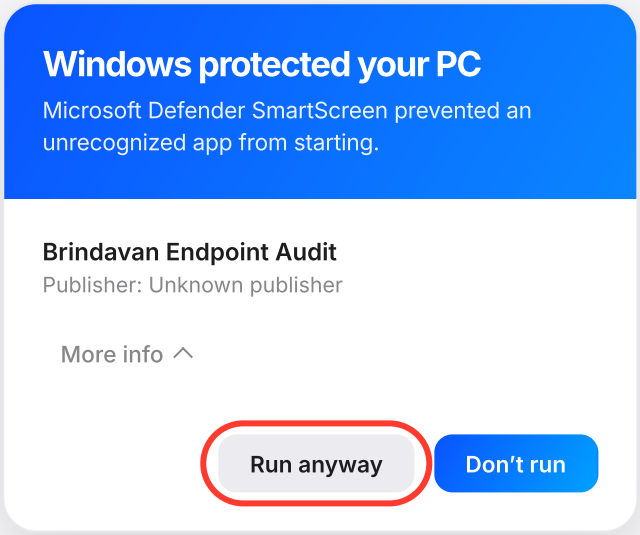

Step 0 · Before you begin

# Allow the app to run.

The first time you open the app, a **Windows pop-up** appears warning that the application might be unsafe. Rest assured, the application is safe and can be run.

**A.** Don't pick *Don't run*. Click the small **More info** drop-down.

**B.** Click **Run anyway**. The app opens.

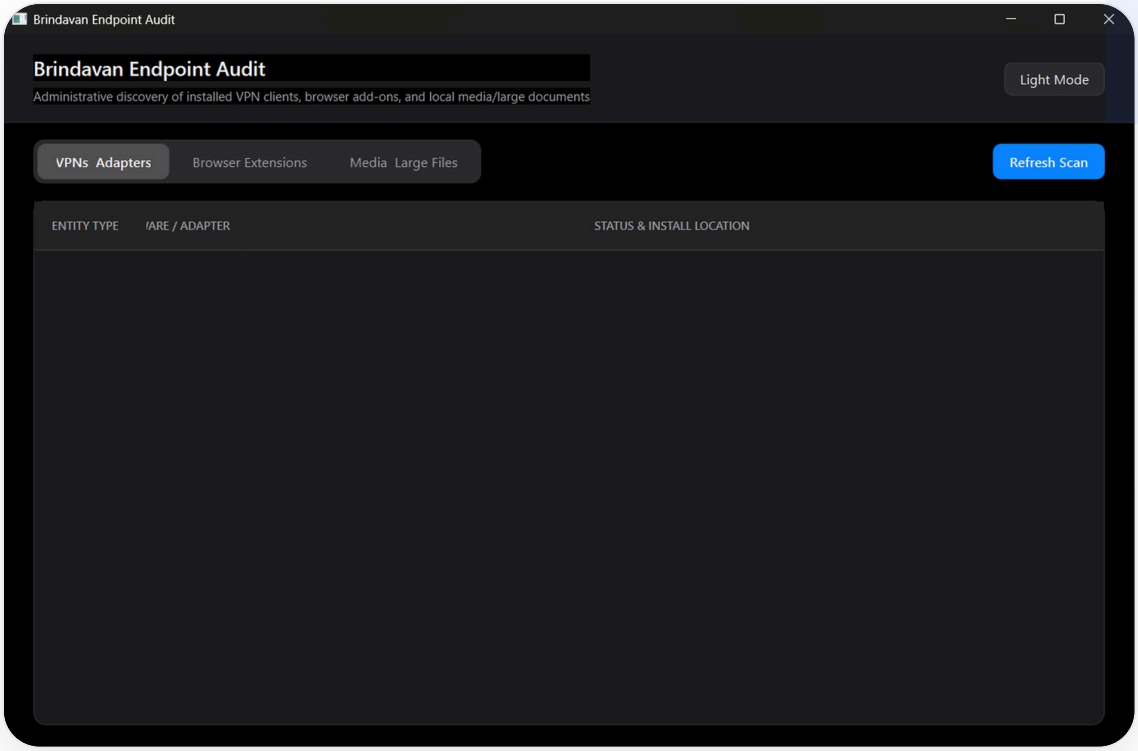

### Always choose "Run anyway".

You will see **Don't run** as the main option, with a small drop-down beside it. Open the drop-down and go with **Run anyway**. You only need to do this once.

Step 1

# Open the app.

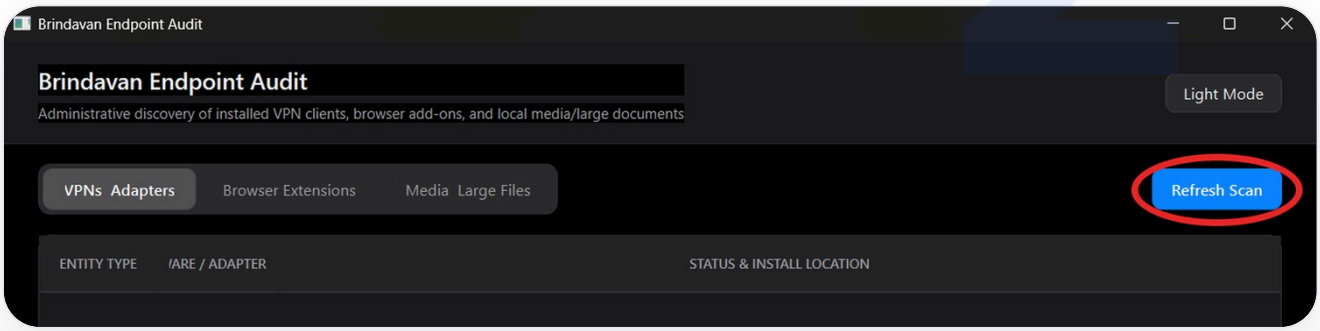

Launch **Brindavan Endpoint Audit**. The window opens on the **VPNs & Adapters** tab.

Step 2

# Run a scan.

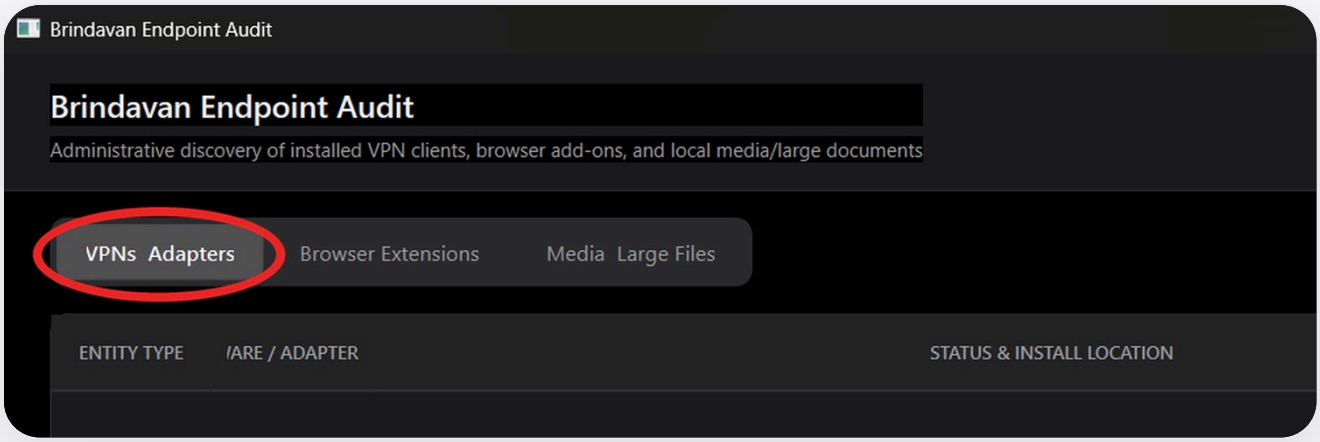

Click the blue **Refresh Scan** button in the top right corner. The app scans the PC and fills the tables.

Step 3

# See VPNs and adapters.

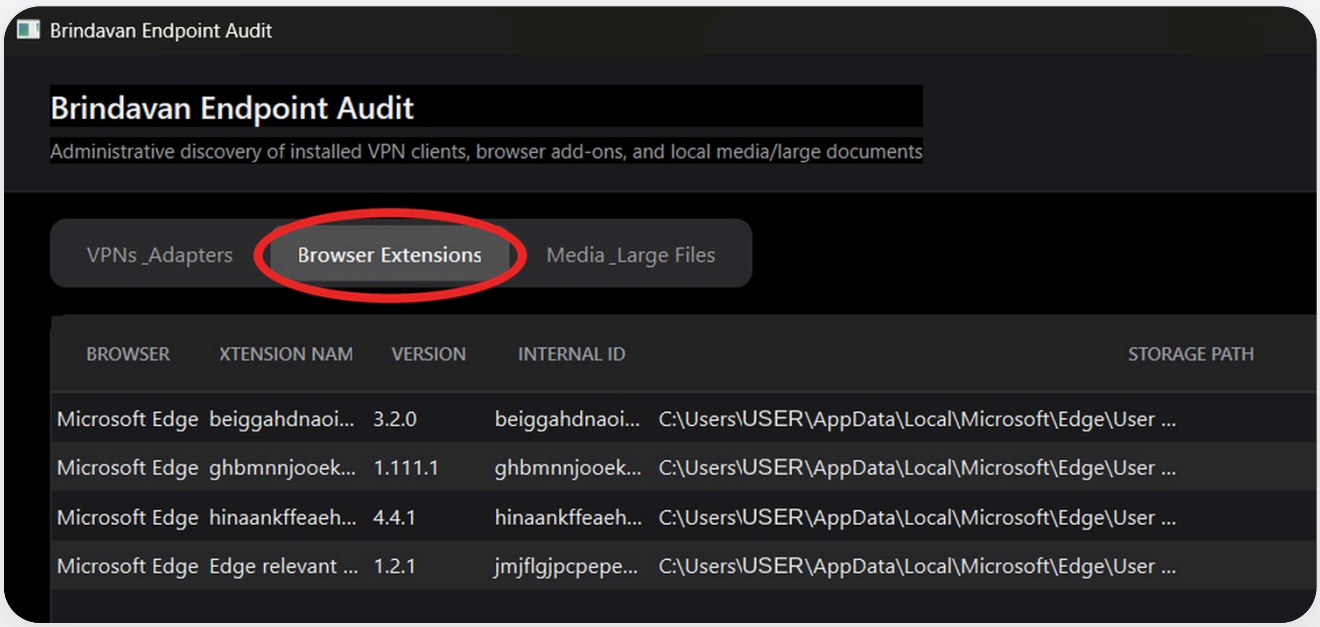

Click the **VPNs & Adapters** tab. It lists VPN software and network adapters, with the columns **Entity Type**, **Software / Adapter** and **Status & Install Location**. If the table is empty, click **Refresh Scan**.

Step 4

# See browser extensions.

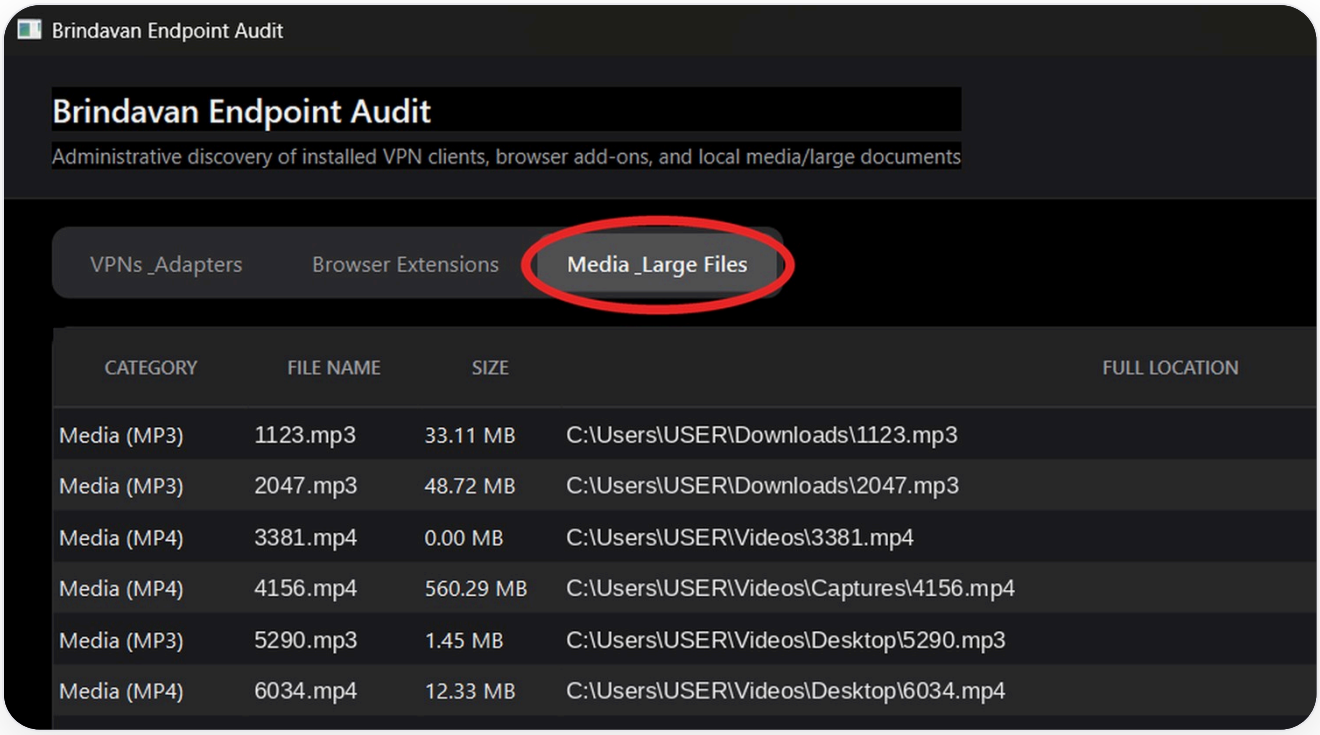

Click the **Browser Extensions** tab. It lists every extension found, with the columns **Browser**, **Extension Name**, **Version**, **Internal ID** and **Storage Path**.

Step 5

# See media and suspicious files.

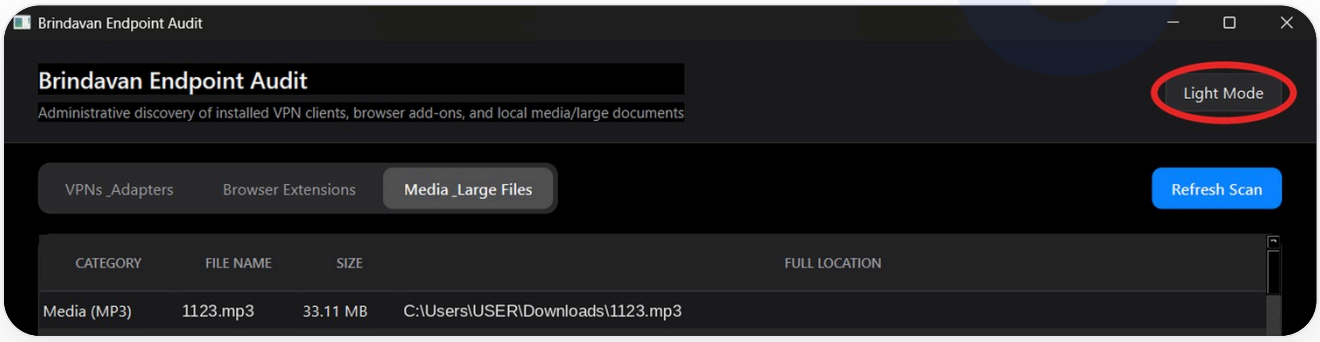

Click the **Media & Large Files** tab. It lists all MP3 and MP4 files, and also surfaces **suspicious movies or videos hiding in the guise of PDF files**. Columns: **Category**, **File Name**, **Size** and **Full Location**. Scroll down to see more files.

Step 6

# Change the theme.

Click **Light Mode** in the top right corner to switch to a light theme. Click the same button again to switch back.

Go further

# Access the features on a wider scale.

To use the full set of features beyond the desktop app, open the following sites.

### brnweb.pages.dev

https://brnweb.pages.dev

Open

### sssihlsecure.pages.dev

https://sssihlsecure.pages.dev

Open

TIP

**Click Refresh Scan again after you install software, add a browser extension, or save new MP3/MP4 files, so the lists stay up to date.**
